DUAL-USE – Regulation (EU) 2021/821

Based on current information, no export license is required for dual-use goods described in the LINNEMANN catalog. The products are not listed in Annex I of Regulation (EU) 2021/821 (EU Dual-Use Regulation) nor in the Export List (Appendix AL to the Foreign Trade and Payments Ordinance—AWV).

Regardless of this classification, a licensing requirement may arise from the so-called catch-all clauses (Articles 4 and 4a of Regulation (EU) 2021/821 and Section 9 of the AWV), particularly in cases where a military or NBC-weapons-related end-use is known or has been declared.

The final determination of whether a license is required in each individual case is the responsibility of the exporter.
